

Pulmonary Function Screening

Pulmonary function tests (PFTs) are noninvasive tests that show how well the lungs are working. The tests measure lung volume, capacity, rates of flow, and gas exchange. This information can help your healthcare provider diagnose and decide the treatment of certain lung disorders.

Exam Information:

- Please wear comfortable clothing
- Take your daily medications prior to testing unless told otherwise
- Do not smoke for at least six hours prior to testing
- Arrive 30 minutes prior to your scheduled appointment to register
- Bring a current written list of medications
- If you are using a short-acting inhaler that is used only as needed, do not use for six to eight hours prior to testing, if possible
- The exam requires you to be NPO (without food/drink) from midnight before the exam, till after the exam is completed

Pulmonary Function Screening (PFT) (cont)

Upon arrival, you will be registered and escorted to the Cardiopulmonary Department where you will be asked about your medical history. If lab work is needed, it will be completed prior to the exam. The exam takes about 30-60 minutes.

Please call (865) 446-8100 if you have questions regarding your exam preparation. A Therapist will explain the procedure prior to the exam and help answer questions. If you have scheduling concerns, please call (865) 374-4000.

***Results should be available within 48 hours, either through your personal patient portal or your ordering provider**
